

Winter Forest Bracelet

Supplies:

Polymer clay Winter Branches House bead
Polymer clay Berry Wobble bead
Pewter owl toggle clasp
12 wooden wobble 25 x 10mm beads
2 pyrite 6mm round beads
29 bronze glass seed beads 11/0
10 brass 7mm jump rings
2 brass 2x2mm crimp beads
10" beading wire

Tools:

Chain nose pliers, wire cutters, crimp pliers

Instructions:

1. String on a crimp bead and 3 seed beads. Thread the beading wire through the branch part of the toggle clasp and back through the seed beads and crimp bead. Close the crimp bead with the crimping pliers. Trim the edge of the small wire and thread the end through the next bead.
2. String the beads in this order with a seed bead between each larger bead: 1 pyrite bead, 6 wood beads, 1 polymer clay wobble, 1 polymer clay house, 6 wood beads, 1 pyrite bead, 1 crimp bead and 1 seed bead.

3. Thread the wire through the owl part of the toggle clasp and back through the crimp bead, pyrite and seed bead. Close the crimp bead with the crimping pliers. Trim the wire.

4. Open a jump ring, string on a seed bead, thread the jump ring over the crimp bead and close. Repeat 4 times on this side. Repeat this step 5 times to cover the other crimp bead. (I have to thank fellow ABS editor Erin Prais-Hintz for that awesome tip!)
