

Beach House Bracelet

Supplies:

Polymer clay Beach House
Sea Urchin ceramic bead
8 8mm lampwork spacers
15mm art metal jump ring
10 6mm copper jump rings
9 2" gunmetal eyepins
18 4mm copper spacers
6" 22 gauge steel wire
2" 18 gauge copper wire

Tools:

chain and round nose pliers, wire cutters, ball peen hammer, bench block, metal file, liver of sulphur

Finished bracelet is 8" long. Omit a few spacers to shorten the bracelet length if needed.

Directions:

1. With the steel wire, create a messy wrapped loop* at one end with 2" of wire. Add the house bead. Repeat another messy wrapped loop on top of the house.
(*Wire wrap under the loop tightly 2-3 times, continue wrapping the wire to create a looser wrap on top, use chain nose pliers to tuck the end of the wire tightly to the wrap.)
2. On an eyepin string one copper spacer, the urchin bead, one spacer, trim wire to a 1/4" and create a loop. Repeat step 2 with all 8 lampwork spacers.

3. Attach each bead together with a copper jump ring.
4. Attach the house to the urchin beads with a copper jump ring. Attach the 15mm jump ring to the top of the house.
5. Wrap the copper wire around round nose pliers to form the clasp. File each end of the wire with a metal file or sand paper. Hammer each end of the clasp with a ball peen hammer. Antique clasp with liver of sulphur. Attach the clasp with a copper jump ring.
