

## Growing Garden Earring

### Supplies:

- 2 matchstick charms
- 2 14mm Czech glass coin flowers
- 8" 20 gauge brass colored wire
- 2 brass kidney wires
- 10 2mm copper beads

### Directions:

1. Cut 4" of wire, center the wire in the middle of the matchstick charm and pull both ends up and around the top of the charm.
2. Bend one wire straight up, above the matchstick charm and wrap the other wire several times around the first wire.
3. String on the flower bead, create a wrapped loop above the flower, trim the wire and tuck in the end of the wire using needle nose pliers..
4. String the earring onto the earwire, add 5 copper beads. Underneath the last bead add a tiny drop of glue applying it with a piece of scrap wire to the earwire.
